EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Jimmie Oaks on April 29, 2005.

The application has been amended as follows:

Claims 7-13 have been cancelled.

The following is an examiner's statement of reasons for allowance: The art of record, considered alone or in combination, neither anticipates nor renders obvious a baler comprising a pair of connecting rods, each having a center line disposed substantially horizontally when a plunger is fully extended into an end section of a baling chamber so as to lie approximately within a horizontal plane passing centrally between upper and lower walls of the baling chamber and between a pair of transversely spaced load pin arrangements associated with the plunger, wherein the load pin arrangements *each including at least one load pin offset vertically relative to one of the center line or plane when the plunger is in its fully-extended position*, in combination with the rest of the claimed limitations.

US Patent number 4,627,341 to Sudbrack et al. teaches a baler (fig. 1) having a load sensing arrangement (190). However, this load sensing arrangement is disposed symmetrically relative to a center line of the connecting rod (94) (see fig. 8).

US Patent number 5,253,570 to Goeckner teaches a baler (fig. 1) having a load sensing arrangement (sensor) disposed on a connecting rod (36). However, Goeckner does not disclose that the load sensing arrangement including at least one load pin offset vertically relative to a center line as claimed in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jimmy T Nguyen whose telephone number is (571) 272-4520. The examiner can normally be reached on Mon-Thur 8:00am - 6:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Derris Banks can be reached on (571) 272- 4419. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
